## FULL CONTROL OVER WET STOCK MANAGEMENT

- FuelPrime MOBILE APPLICATION and WEB PORTAL are used to visualise data from your fuel station.
- Real-time data can be checked at any time on your mobile phone, making it easier to monitor stocks.
- Moreover, our MOBILE APPLICATION can be extended with new features customised to your needs.
- If you do not have a probe to measure the fuel level in the tank, we can install a MAGNETOSTRICTIVE PROBE at your station.
